Quality & Excellence

In a century, since starting from humble beginnings in East London as a specialist manufacturer of teakwood outdoor furniture, we have become known and respected the world over for producing luxury outdoor furniture that strikes the highest note in quality and style. This is our story...

1920

Victor Tyrie and Frederick Barlow, together with a few others, start their own business in London, initially in Walthamstow, but then move to a disused horse stable behind a terrace of Victorian houses in nearby Leytonstone.

1949

After the WWII, we resume production, initially using home-grown timber to produce rustic outdoor furniture, but later revert back to our tradition of using only the best teak, supplying fashionable and exclusive London stores of the time, such as Harrods, Maples, and Heals.

1970

After nearly 50 years, we move from Leytonstone to the old market town of Braintree in Essex. This move benefited from a scheme run by The Greater London Council in several designated expanding towns. The scheme provided housing for residents of London that were prepared to move away from areas being redeveloped and included some of our employees.

1986

The company opens an office and warehouse in the USA to serve its increasingly important market in North America.

1992

In response to a decision by the Indonesian government to stop the export of teak, which we had sourced from there since the early 1980s, we opened a factory on the island of Java. The factory was redeveloped and expanded to approximately 300,000 sq.ft.. Today, Barlow Tyrie proudly employs over 250 local people.

2020

Today, Victor Tyrie's son, Peter and grandsons, Mark and James manage the company, making Barlow Tyrie a truly family business with a continuing legacy of designing and manufacturing some of the finest outdoor furniture money can buy.

Woodland

The Woodland screens create greater intimacy and enclosure for your seating or lounging areas. An optional removable curtain completes the feeling of seclusion and acts as a wind break.

Rustic Teak

Our rustic teak collection is the latest design concept from Barlow Tyrie but one with very old roots. We have sourced first grade plantation grown teak wood for many decades and the quality of our design and craftsmanship is well known.

However, this rustic style is a slight departure for us. Teak with blemishes, which we would not consider appropriate for our premier range, is used here to create a look that is often referred to as 'farmhouse' or 'barn wood' in America and the name Titan was chosen to represent this heavy, robust design with its grand dimensions.

Titan

Make a stunning visual statement. Are you a chair person?
Or perhaps prefer a bench? Keep your drinks cool and even prepare
food on the service table. BBQ anyone?

Aluminium

We use an environmentally responsible process to clean and etch the aluminium before applying a high quality powder coating, which results in a stunning visual effect combined with long service and minimal maintenance.

The Textilene® fabric slings combine colour fastness, comfort and weather resistance. You can enjoy dining and relaxing outdoors in the summer months with our low maintenance tables and chairs; a stylish addition to any garden or terrace.
