

Barlow Tyrie at Concrete House

Layout Lounger, Narrow Low Table,
Woodland Screen

Founded in 1920, Barlow Tyrie is the world's oldest remaining manufacturer of teak wood leisure furniture. It has since extended its collections to include stainless steel and powder-coated aluminium.

Barlow Tyrie combines form and function with manufacturing experience and expertise. Our aim is to create pleasing designs with good ergonomic performance and so make outdoor living as stylish as it is comfortable.

An international reputation based on stylish yet practical designs, traditional craftsmanship and excellent customer service has made the Barlow Tyrie brand synonymous with quality.

Quality & Excellence

Barlow Tyrie is renowned worldwide for luxury outdoor furniture that strikes the highest note in quality and style.

We use the finest grade of FLEGT-licenced teak wood, marine grade stainless steel, and aluminium for our furniture. Our hardware and fittings are made from solid brass or, where strength dictates, stainless steel.

Each collection is made with an uncompromising pursuit of quality, whether it is in the materials used or the craftsmanship employed - this is our ethos.

Elite Craftsmanship

Traditional values; quality, craftsmanship, service and care. Over many years we have honed our skills to create beautiful furniture, built to stand the test of time.

Our designers have combined pleasing aesthetics with ergonomic performance to create furniture that opens up your life outdoors to a world of stylish possibilities. Through our commitment to produce the finest outdoor furniture, we remain at the forefront of this rapidly changing industry and continue to demonstrate the best in British design and manufacturing expertise.

Innovative designs

The innovation and development of our furniture benefits from our manufacturing knowledge and experience, resulting in products that are constructed to the highest standard.

We only use the finest materials available, which are tested and approved to the appropriate British Standard for safety and strength. Our range of furniture includes many pieces that have won international design awards and are frequently copied classics.

We have diversified in recent years developing collections in a variety of quality materials, which we combine with both traditional and innovative construction methods.

It is reassuring to know that our designers and craftsmen are creating 'modern-classics' with the quality, style and comfort that has become the hallmark of our ethos.

A century of excellence

In a century, since starting from humble beginnings in East London as a specialist manufacturer of teakwood outdoor furniture, we have become known and respected the world over for producing luxury outdoor furniture that strikes the highest note in quality and style. This is our story...

1920

Victor Tyrie and Frederick Barlow, together with a few others, start their own business in London, initially in Walthamstow, but then move to a disused horse stable behind a terrace of Victorian houses in nearby Leytonstone.

1949

After WWII, we resume production, initially using home-grown timber to produce rustic outdoor furniture, but later revert back to our tradition of using only the best teak, supplying fashionable and exclusive London stores of the time, such as Harrods, Maples, and Heals.

1970

After nearly 50 years, we move from Leytonstone to the old market town of Braintree in Essex. This move benefited from a scheme run by The Greater London Council in several designated expanding towns. The scheme provided housing for residents of London that were prepared to move away from areas being redeveloped and included some of our employees.

1986

The company opens an office and warehouse in the USA to serve its increasingly important market in North America.

1992

In response to a decision by the Indonesian government to stop the export of teak, which we had sourced from there since the early 1980s, we opened a factory on the island of Java. The factory was redeveloped and expanded to approximately 300,000 sq.ft.. Today, Barlow Tyrie proudly employs over 250 local people.

2020

Victor Tyrie's son, Peter and grandsons, Mark and James manage the company, making Barlow Tyrie a truly family business with a continuing legacy of designing and manufacturing some of the finest outdoor furniture money can buy.

Secret Bay, Caribbean

Inspiration

Award-winning Secret Bay is a six-star, rain forest resort experience, featuring secluded cliff-top residential-style villas, private plunge pools, dedicated attendants, personal chefs, and secret beaches.

Secret Bay came to us with a need for fine quality, durable Horizon and Haven loungers, Monaco dining chairs and Linear tables for use inside and outside each of their outstanding villas.

Montalto Estate, Ballynahinch, UK

Inspiration

Outline: Montalto Estate, nestled in the heart of the picturesque County Down countryside, is a privately-owned demesne which dates back to the early 1600s and receives over 100,000 visitors per year. Its stunning gardens, which allow visitors to ‘reconnect with nature’ have been shortlisted for UK Historic House Garden of the Year, and hold a 5-star rating from Tourism Northern Ireland. The Café at Montalto, which opened in September 2018, is a stylish eatery which specialises in exquisite seasonal menus and obtains many of its herbs and vegetables from the estate grounds.

Solution: The Montalto Estate was inspired by RHS Wisley’s use of Barlow Tyrie’s Titan collection in its 2018 café launch. Montalto needed seating that reflected the rustic charms of this Northern Irish country estate and its elegant gardens. Multiple Titan tables, benches, and seats were delivered to the outdoor space allowing seating for up to 56 patrons at any one time. Montalto staff can easily and simply buff the wood back to its original finish should it get stained by beverages in such a high footfall area. This function, coupled with high quality, was critical to the estate, so much so that ‘The Shop at Montalto’ also offered a small selection of the Titan collection. “We don’t see ourselves as your standard tourist attraction,” says Marketing Manager Tracy O’Toole. “Our shop’s focus is on premium products that are in keeping with the Montalto brand that we know our customers will love.”

Marks Hall Estate, Essex, UK

Inspiration

Outline: Over 40,000 visitors a year come to explore Marks Hall Estate’s world-class arboretum, taste home-cooked food and delicious cakes at Orchard Kitchen, and browse the plant centre and shop. Marks Hall Estate has been a favourite of senior citizens for many years, but of late has seen an increase in young families coming to enjoy Japanese maple gardens and lakes that feature many easily walkable paths.

Solution: Barlow Tyrie has been an essential supplier to Marks Hall Estate for more than 20 years, regularly supplying memorial benches, with plaques and inscriptions, for those that wish to remember loved ones at their favourite walking spots.

Marks Hall Estate continues to choose Barlow Tyrie for the quality of its benches. “They do last a long while!” says arboretum manager, Ian Chandler. “Barlow Tyrie benches fit into our location well, and it’s important to select local companies to supply products, as we have our own environmental policy which puts, at its heart, sustainability.”

Farmed teak furniture is the ideal seating option to mitigate the output of CO2 as well as act as a carbon trap. Trees cut down to make Barlow Tyrie furniture are replaced.

Ian continues, “We grow trees from around the world here at Marks Hall Estate. We want to ensure as many of our suppliers as possible share our values while offering visitors a nice place to sit, enjoy the scenery, and remember loved ones.”

Refined Mallorca, Mallorca, Spain

Inspiration

Background: Refined Mallorca, a property development portfolio team that promotes the ‘real Mallorca’, likes to do things on the small-but-perfectly-formed scale. Co-director and part-time viticulturist Klaus Heinemann explained that the business only takes on one very select property a year to renovate and then rents out to its discerning customers. “Our properties are in prime locations,” Klaus tells Barlow Tyrie, “We have penthouse apartments in central Palma with stunning views of the cathedral as well as beautiful houses in the countryside.” He went on to explain the business’ background, “In around 2006, my business partner and I started developing properties in Amsterdam and discovered Barlow Tyrie furniture in the process. We then found there was an opportunity to develop in Spain, but on a larger scale. Now we spend more time here when the weather is good and don’t have to deal with too much of the rain in Amsterdam!”

Solution: Refined Mallorca’s Finca Son Fornes site sits on 50 acres of land and is located in a rural idyll far from the tourist-heavy crowds of Palma. Each property has its own private space, set far back from any roads. The team placed Barlow Tyrie furniture brought over from a previous Amsterdam roof terrace project which included Horizon sun loungers, dining tables and chairs. Klaus and his team were amazed to find that, with a little bit of cleaning effort, the chairs and loungers (now already over ten years old) were made to look like new again. This longevity has given Refined Mallorca confidence to not only complete their current rental portfolio with Napoli parasols and classic London benches but also acquire further Barlow Tyrie ranges for their third upcoming Finca Son Fornes residence due for completion in 2021.

Private Residence, W. Sussex, UK

Inspiration

Background: Continuous views are essential to the owner, which is no surprise when one takes in the breathtaking 180-degree vista of England's south from the garden. In addition, the client wanted to enjoy the synergy of the landscape against both the old and new parts of the house from where the dining area has been built.

Solution: Quite simple really - the client needed the dining table to be big! The weight of the table was also crucial as it can get windy in this very open space in the south of England - aluminium would simply blow away. The material of the dining suite needed to be sympathetic to both the early 20th-century stonework and the new glass and timber parts of the building. Barlow Tyrie's Horizon and Apex collections met this need. The dark translucent seat sling coupled well with the anthracite pillars of the new part of the building, while the honey-coloured teak table and chair frames reflect the design of the timber soffits. Join these aspects with a gently curved design, and the choice was a simple one.

Challenges: As with many brands, the COVID pandemic affected delivery logistics. However, this was put right by Barlow Tyrie's skilled team who set up the furniture as a gesture of goodwill.

Inspiration

Private Residence

Private Residence, New Jersey, USA

Inspiration

Background: Creating a modern and welcoming open space for relaxing, bathing, and dining during the spring and summer months is never easy. The homeowner contacted Barlow Tyrie USA stockist, The Wickery in November 2019 during the build phase of the project to help recommend outdoor furniture. The main objective? No throw cushions!

Solution: A modern look was the key objective. Aluminium frames with teak arms were recommended as a way to soften the sometimes cold and 'industrial' feel of all-metal frames. Barlow Tyrie's Aura 10-seater dining set, along with four Aura high dining chairs for the bar met this need and budget. The colour of the chair sling matched the previously purchased lounge suite. 'Having sling-backed chairs helped remove the need for fluffy, dated looking cushions.' said The Wickery MD Panatda. 'The client wanted to ensure that the teak on the chairs would not crack. Barlow Tyrie's 100-year heritage, service level, and high-quality manufacturing processes helped waylay any fears and give the client an informed and confident choice.'

Parasols

Napoli

Napoli Parasol 2.8 with tilting action

The eucalyptus poles and struts are accented with either nickel-plated, solid brass or aluminium and stainless steel fittings, for a first class finish. A very durable matte finish urethane is applied to all wood surfaces. Engineered with tilting, pivoting or telescopic mechanisms.

London

Pause for a moment and consider the place. London is an original Barlow Tyrie design classic from the 1920s that features a wide flat arm, which is perfect for resting a drink or book. A robust construction means London is suitable for public spaces and private gardens. The armchair and bench can be carved with an inscription or fitted with a bronze plaque.

Materials & Accessories

Cushions

Our cushions are manufactured using Sunbrella®, a colourfast fabric that is made from a durable, all-weather, 100% solutiondyed Teflon® coated acrylic fibre. This fabric repels water, but cushions should not be left out in heavy rain for prolonged periods. If cushions do become saturated, place them on edge until dry.

Most fabrics are available in Sunbrella® Standard and Sunbrella® Rain® fabric. Rain® fabric has an additional barrier that makes the fabric waterproof and the surface of the cushion quick drying. Please note that although the fabric is waterproof, zips and venting will allow ambient moisture from the atmosphere to enter the cushion. Please do not store cushions until dry. There is an additional charge for cushions in Sunbrella® Rain® fabric.

Ordering cushions

When ordering cushions, please suffix the fabric colour code to the cushion code. For stock colours outside the USA please see our current selection opposite. If the waterproof Sunbrella® Rain® option is required, please add a ‘V’ to the fabric code, e.g. Natural = 5405 V.

Sunbrella® features:

- The unique formula of Sunbrella® fabric together with their high production standards make the fabric easy to clean and fade resistant
- Please note that standard stock colours may not apply to the USA stockists. Due to the vast choice available from Sunbrella® fabrics, we bespoke manufacture our cushions and pillows to order
- In the USA, selected Sunbrella® Rain® fabrics are available as an option

- Please note when ordering cushions in USA – the fabric name, colour and/or fabric code used are sometimes different
- Note: Sunbrella® Taupe cushion colour has two different codes, in the European Collection 3729 which is fire retardant and in the North America Collection 5461 V is available as Rain® V77 fabric

Are our fabrics waterproof?

Yes – we have cushions in Sunbrella® Rain® fabric that has an additional barrier finish, which makes the fabric waterproof and quick drying. The zips and vents are not waterproof but are protected from rain by a folded flap. Cushions should be placed with the flap down, as illustrated to the right.

Cushion covers are designed to provide maximum weather protection with comfort and breath-ability.

Optional waterproofing for your cushions

When ordering cushions, please suffix your fabric code to the cushion code. If the waterproof option is required, please add (V) to the fabric code, e.g. 5404-V Natural. There is an additional charge for Rain® barrier finish fabrics. If you require help in choosing your cushions then please telephone or email your enquiry – please see our website for contact details. www.teak.com

How do I clean cushions?

One of the best ways to keep your cushions looking good and to minimise the need for deep or vigorous cleaning is

to properly maintain the fabric. You can do this by brushing off dirt before it becomes embedded in the fabric and, wiping or spot cleaning spills as soon as they occur. A stain repellent may be applied to the fabric. A comprehensive guide to cleaning various spills is available on the Sunbrella® website.

After cleaning cushion and parasol fabric we recommend the use of ‘Barlow Tyrie Fabric Weather Guard’ (4FWG). It is easier to leave the cushion covers on during the cleaning process. Cushions that are cleaned before storage will be ready and waiting for the sun to shine. Please do not store cushions until fully dry.

For cushion colours please check the fold out swatch on the inside back cover

Layout Double Lounger, 160 Narrow Table and Woodland Screen

Monterey Deep Seating Armchair

Napoli Cantilever Parasol 4m, and Haven
Deep Seating Settee set

Slings & Cord

Atom, Aura, Equinox, Horizon, Mercury, and Monterey

All slings are made either from Textilene®, a woven PVC -coated polyester yarn or Sunbrella® woven fabric, for extra luxury.

Focusing on subtle patterns that read as textures, Sunbrella® sling allows you to achieve an elevated indoor aesthetic in an outdoor setting. These materials guarantee that our slings are strong, durable, mildew resistant, and require the minimum of maintenance. After rain, a light tap and any water simply drops off. To keep your Sunbrella® fabrics and Textilene® slings in optimum condition we recommend using ‘Woven & Sling Non-Foam Cleaner’ (4WTC).

The Atom armchair seat is made from Denim Sunbrella® sling fabric to create a clean line that is comfortable. Our elegant Monterey armchair is built using quality materials and refined construction methods, combining a sculpted solid teak frame. The seat and back use braided all-weather cord that’s a woven blend of Olefin fibre (a key feature is its colour-fastness) and all-weather Textilene®, making it rugged but with a soft hand. Monterey offers a choice of two cord colours: .400 Brown or .401 Chalk.

Brown

.400

Chalk

.401

Slings & Cord features:

- Over two hundred feet of all-weather Textilene® cord is used for the dining Monterey armchair seat and backrest
- Sunbrella® fabric sling blends the strength of PVC with the softness of Sunbrella® acrylic yarn for added comfort
- Minimal care and maintenance
- Resistant to the outdoor environment

Sling fabrics – Textilene® and Sunbrella®

The Aura collection is available in 3 set colourways. When ordering from these collections, please add the correct colour suffix to the product code. Aura non-Modular and Modular seating comes in the standard frame + Textilene® sling colour. The Equinox stainless steel extending dining table 360, is available powder coated/painted, in 2 colourways: .01 Graphite powder coated frame and .808 Dusk ceramic tabletop, with matching .513 Carbon Sunbrella® fabric slings for dining side chair and armchair. .02 Arctic White powder coated frame and .806 Frost ceramic tabletop, with matching .512 Seagull Sunbrella® fabric slings for dining side chair and armchair. The Equinox or Mercury ‘powder coated/ painted’ armchairs (and loungers) are available in both Carbon and Seagull Sunbrella® sling colours, which complement the tables. The Atom armchair uses Denim Sunbrella® sling fabric. This sling fabric blends the strength of PVC with the softness of Sunbrella® acrylic yarn for added comfort.

Parasols are manufactured from Sunbrella® canopy fabrics; a durable, 100% solution-dyed acrylic. With the parasol fabric colour locked deep inside the yarn, it gives excellent resistance to the fading often caused by sunlight and cleaning.

Layout

Atom, Aura, Equinox, Layout, Mercury, Monterey and Titan

These products are powder coated to give a long period of maintenance free service with a stunning visual effect. We use an environmentally-friendly process to clean and etch the aluminium and stainless steel before applying a high quality oven-fired powder coating.

Equinox, Layout and Mercury offer powder coated dining side chairs, armchairs and settees, using a ‘marine grade’ stainless steel frame and seating in complimentary sling colours.

The Equinox extending dining table 360 features a .01 Graphite powder coated frame with a .808 Dusk ceramic top or a .02 Arctic White frame with a .806 Frost ceramic top. Monterey tables have a .02 Arctic White frame with a .806 Frost ceramic top or a .01 Graphite frame with a .805 Oxide ceramic top.

Product care and maintenance

For powder coated finishes it is important that the finish is cleaned regularly using a solution of mild detergent in warm water to retain the aesthetic qualities and the expected long term durability. Surfaces should be cleaned using a soft cloth, sponge or a natural bristle brush, avoiding abrasive materials that may damage the finish. The frequency of cleaning depends upon the environment in which the products are placed but as a general guide an annual clean will suffice in most urban environments. In areas of high pollution, such as marine and swimming pools, cleaning should be carried out on a more frequent basis.

Aluminium and stainless steel products – Frame touch-up paint colours

7TUP.01 “Graphite” touch-up paint – 12ml.

7TUP.02 “Arctic White” touch-up paint – 12ml.

7TUP.04 “Champagne” touch-up paint – 12ml.

7TUP.08 “Black” Titan range touch-up paint – 12ml.

7TUP.14 “Forge Grey” Layout range touch-up paint – 12ml.

Localised damage to powder coated finishes can generally be successfully repaired. The exact techniques depend on the nature and extent of the damage. Powder-coat is a “dry” baked on finish, not a “wet” applied paint, therefore, our “wet” touch-up paints do not exactly match the original colour.

Note: Aura collection is available in 3 colourways for Frame and Textilene® sling:

.01.500 Graphite + Charcoal

.02.505 Arctic White + Pearl

.04.502 Champagne + Titanium

The Equinox dining side chair and armchair plus the Mercury armchair are available in 2 colourways: .01 Graphite and .02 Arctic White powder coated frame, with bespoke matching fabric slings. The Titan products (right) are part of our Rustic Teak range of furniture. The serving table features an insulated ice box for drinks, drawers, bottle racks and a removable table extension leaf. The collection includes an extremely comfortable stacking armchair with shaped rustic teak back and seat on a black powder coated aluminium frame available in .08 Black. Touch-up paints for our furniture collections are available, to repair any damage that might occur during its lifetime of domestic use.

Dusk

.808

We offer our ceramic tabletops in ‘high-fired’ ceramic that are ideal for outdoor use; scratch-proof, weather-resistant and attractive. All ceramics have a wipe clean surface with good colour stability

Monterey ceramic tabletops are available in Oxide and Frost and the Equinox ceramic tabletops, including our extending tables, use Frost and Dusk. Please note that we supply the Mercury serving table (2MES) with a standard ceramic top in Nero Black but we have a selection of optional ceramic tops (2MEST) as follows: .805 Oxide; .806 Frost and .808 Dusk.

Ceramic features:

- Ideal for outdoor use; scratch-proof, weather-resistant and long-lasting beauty
- Wipe clean surface and good colour stability
- A ‘high-fired’ Italian ceramic that is very functional

How do I care for ceramic surfaces?

Ceramic resists scratching and is not harmed by organic and inorganic solvents, disinfectants, and detergents. It can be easily cleaned without affecting its surface characteristics. We recommend using no more than soapy water and a sponge to maintain the aesthetic and practical qualities of this exceptional material.

The aesthetic properties

The ceramic sheets we use are very large, which makes them ideal for a one-piece table top. In addition to being functional this ‘high-fired’ Italian ceramic has a lot of design detail.

What are the features of Laminam ceramic?

Manufactured using advanced techniques, the sheets combine reduced thickness and large size with very high resistance to mechanical stresses, chemicals, wear, scratches, deep abrasion and bending, are easy to sanitise, resistant to frost, fire, mould and UV rays. All the features and chromatic properties of the sheets are unalterable, and remain unchanged over time and in the presence of all kinds of weather conditions. A revolutionary material respectful of the environment: natural raw materials, sustainable technology, products entirely recyclable are the basis of Laminam’s green policy. Reaction to fire means “degree of participation of a material in the development and propagation of fire to which it is subjected”; as regards this feature, materials like Laminam is assigned to European classes according to their increased degree of participation in combustion, in accordance with standard EN 13501. The reaction to fire therefore assesses the higher or lower propensity a

material has to participate in a fire. While the fire resistance, which is a property related to a system or a structure and not to a single material, is different. Laminam does not contain organic material therefore it is resistant to fire and high temperatures. In the event of fire it does not release smoke or toxic substances.

Innovation

Ceramics have thicker, single layer sheets with a fibreglass mesh backing designed to ensure surface evenness. Often referred to as ‘high-fired’ due to the fact it is baked/fired in an electric kiln at exceptionally high temperatures (around 1220°C / over 2000°F) to produce a porcelain product that has high surface strength. The scientific term is sintering, the process of compacting and forming a solid mass of material by heat. These fine sheets are then cut, profiled, and polished by hand to give a smooth soft edge. This Italian made ceramic makes our tabletops exceptionally resistant to breakage. This product has many exceptional features, including;

- Non-porous, meaning it is naturally anti-bacterial and hygienic
- Does not require annual sealing unlike natural marble and granite
- Frost proof; winter snows will not harm it.
- Scratch-, stain- and UV-resistant properties

Monterey 100 Dining Table with Frost Ceramic top

Monterey 100 Dining Table with Oxide Ceramic and Monterey Dining Armchairs in full teak

Inscriptions

Our inscription service is available for most of our teak armchairs, benches, and seats. The inscription is normally placed on the top rail but could be on the rail under the chair seating or on a table top. This 3D-lettering is carved in a traditional serif typeface using a ‘V’- cut, which allows the inscription to be read easily from the side as well as from immediately in front, which is an advantage over a standard ‘straight-cut’ letter.

As an alternative to carved inscriptions, we offer bronze plaques with lettering set in cream vitreous enamel. A choice of lettering and font styles is available. The finished plaque is then recessed into the face of the rail and held in position using a special hidden vandal-proof fitting.

Inscription service and bronze plaque features:

- 3D-lettering is carved in a traditional serif typeface
- We use a ‘V’- cut inscription, that is easily read from the side and immediately in front
- We offer bronze plaques, unique and bespoke in design, and we can make these to length

Carved Inscription – Serif font

Our carved inscription service may be used on most of our teak armchairs, benches and seats. We normally supply the inscription in capital letters using a Times New Roman serif font at 2.5cm (1”) in height. If more than one line of text is required we might need to reduce the height of text depending on the model of seat. The maximum number of characters and length of an inscription will depend on the seat model, the length of the seat, the height of text, whether upper or lower case or the font used. Our Rothesay seat allows 3 rows of text whilst other seats can only accommodate up to 2 rows. Times New Roman is our

standard font but we are able to supply bespoke inscriptions in other fonts plus inscriptions in foreign language scripts such as Chinese or Arabic. We can supply teak panels in a seat back with a logo or a club crest.

Bronze Plaques

Our bronze plaque service may be used with most of our seats and benches. We supply as standard a 57mm deep (approx. 2”) bronze plaque with 6mm – (0.25”) block letters, see detailed image opposite.

However we can supply plaques to any size and lettering in any font – please inquire.

Bronze Plaque Letters

The engraved lettering is filled with vitreous cream enamel that is not affected by an outdoor environment. Alternative soft fillings, offered by other suppliers and often used on plaques sited inside a building, are totally unsuitable for use outdoors and should be avoided. Our plaques are recessed to finish flush with the surface of the seat rail with a hidden fixing that leaves the visible face of the plaque clear and makes its unauthorised removal difficult. Plaques allow you to be creative with your choice of font or image.

Glenham and Rothesay seats with inscriptions and plaques

Security fastenings

We have two types of security fastener to prevent the unauthorised movement of seats or other items in public areas.

We supply stainless steel fixing irons that must be cast into a concrete block to secure a seat. We supply brass fixing brackets to secure any item of furniture in place on a solid floor. These polished brass security fasteners are supplied with tamper-proof fixings for use on concrete, paving, and wood floors.

Security fasteners features:

- Stainless steel seat fixing irons – set of 2
- Anchors a bench or chair into the ground
- Brass security fasteners – set of 4
- Supplied with tamper-proof fixings

**Seat Fixing Irons
(2 required – price each)**

£10

Glenham 150 Seat

Care products

Teak furniture can be left out all year round. However, as part of a maintenance programme we recommend the use of teak cleaner each spring to prepare your furniture for the season.

If untreated, teak will weather to a soft silver grey patina. If you wish to slow the weathering process and retain the golden teak colour, apply Teak Colour Guard before the weathering process begins. Although stainless steel products are made to withstand the rigours of an outdoor environment, regular care and maintenance is required to preserve the fine appearance of your furniture.

We offer care products for all the furniture we supply, which are easy to

use and very effective. An annual or twice-yearly maintenance regime will be more than adequate in most instances to maintain your furniture in prime condition; however in coastal and chlorinated environments we recommend rinsing your stainless steel furniture with fresh water.

For powder coated furniture we suggest you clean and maintain your furniture with Powder Coated Stainless Steel & Aluminium Cleaner. To keep your Sunbrella® furniture fabrics and Textilene® slings in optimum condition we recommend using Woven & Sling Non-Foam Cleaner. We supply cleaning products with their own applicator pad.

Anti-Wasp Solution

4WS Quantity: 1litre
Anti-Wasp Solution is applied to outdoor furniture to deter wasps from defacing weathered wood.
Not available in the USA

Materials & Accessories

Care products

Fabric Cleaner

4FC Quantity: 1litre
Removes dirt and grease, oil, pollutants and mould from Barlow Tyrie cushions.

Fabric Weather Guard

4FWG Quantity: 1litre
Fabric Weather Guard protects the fabric and slows down the ageing effects of weathering. Supplied with its own special applicator pad.

Teak Oil

4TO Quantity: 500ml
By choosing teak you have selected the finest, most durable material available for outdoor furniture. Teak Oil is the traditional method of retaining the original colour of new teak. Ensure that the wood is completely dry before applying with a brush or cloth. Apply liberally and wipe off the excess with a rag.

Teak Cleaner

4TC Quantity: 1litre
Teak Cleaner cleans and restores discoloured, dark grey teak. Contains brightener ingredients which will restore your teak to its original colour. Supplied with its own special applicator pad.

Teak Stain Guard

4TSG Quantity: 1litre
Teak Stain Guard forms an invisible layer to protect your teak from everyday stains such as butter, oil, and red wine making the cleaning of accidental spills an easy task. Supplied with its own special applicator pad.

Teak Colour Guard

4TCG Quantity: 1litre
Teak Colour Guard helps to maintain the golden brown colour of new teak. Supplied with its own special applicator pad.

Powder Coated Stainless Steel & Aluminium Cleaner

4AC Quantity: 1litre
Powder Coated Stainless Steel & Aluminium Cleaner easily removes dirt, grease, oil, pollutants, and mould from your furniture. Supplied with its own special applicator pad.

Stainless Steel Clean and Guard

4SSCG Quantity: 1litre
Stainless Steel Clean & Guard cleans and leaves a fine layer of Teflon® on the surface to help prevent the build up of contaminants. Supplied with its own special applicator pad.

Woven & Sling Non-Foam Cleaner

4WTC Quantity: 1litre
Woven & Sling Non-Foam Cleaner is a non-foam agent that maintains woven furniture and Textilene® slings and Sunbrella® fabrics without unsightly residue. Supplied with its own special applicator pad.

Furniture Covers and Storage Bags

Our furniture covers are made using Weather MAX-LT®, a modified highly UV-resistant polyester fabric offering superior strength and durability with long-term colour retention.

This fabric is the industry’s most balanced and cost-effective fabric available for outdoor applications requiring high water repellency and excellent breathability; the perfect choice for outdoor furniture covers where lightness and ease of storage offer an advantage.

These lightweight, one-way breathable covers allow trapped moisture to disperse, but prevent rain and dust from penetrating. A unique fastening ensures a secure fit. The life and good looks of the cover depend a great deal on the way it is used and how it is cared for. The covers are easy to put on and remove, and can be stored in their own pouch when not required.

Helpful hints

If the furniture has any sharp corners or edges, place foam rubber on the sharp edge to reduce risk of puncture or abrasion of the covers. For table and chair combinations, placing an object, such as a beach ball, under the centre of the cover can help with water drainage.

Note: Covers for standard dining groups are designed to cover the furniture with the chairs not under the table. Please allow 4 to 6 weeks for delivery.

Furniture covers features:

- WeatherMAX-LT®, a modified highly UV-resistant polyester fabric
- Lightweight, one-way breathable covers allow trapped moisture to disperse
- Unique fastening ensures a secure fit

400828 Cushion Storage Bag fits 8 armchair/cushions

Frequently Asked Questions

Which materials does Barlow Tyrie use?

We combine the highest quality materials with superior craftsmanship and design to produce our furniture, resulting in a worldwide recognition for excellence. We have combined stainless steel with Textilene® or Sunbrella® slings and the highest grade teak with all-weather cord, which is woven from Olefin®. We powder-coat aluminium and stainless steel frames, and combine them with synthetic woven materials to produce contemporary furniture to our traditional high standard.

What is a FLEGT licence?

Our products are made of FLEGT-licensed timber from Indonesia. The legality of the timber in our products is assured through Indonesia's national timber legality assurance system and FLEGT licensing scheme. FLEGT-licensed timber is considered to fully comply with the EU Timber Regulation. Customers who place our FLEGT-licensed timber products on the EU market do not have to undertake further due diligence.

For a complete list of terms and definitions, refer to the FLEGT Regulation of 2005 and its implementing regulation of 2008, the EU Timber Regulation of 2010, and its delegated and implementing regulations of 2012.

What is the teak weathering process?

Over a period of time in an outdoor environment, untreated teak furniture which is exposed to the sun will turn a beautiful silver-grey colour. The length of time this takes will vary with climatic conditions. Not only is it common for a teak bench, chair, or table to last 70 years standing out in the elements, it is also common to pass down such furniture to future generations as an heirloom.

Why do occasional cracks appear on my furniture?

Teak is a natural material and as such fine cracks in the end grain of components, e.g. legs and arms, may appear and then disappear with variations in the weather and the consequent change in the moisture content of the wood. Such fine cracks are normal, especially in heavier components, and will not affect the life or serviceability of your furniture.

Do I need to store my furniture during the winter?

No, Barlow Tyrie teak furniture can be left outdoors, uncovered, all year round. If you choose to cover your furniture outdoors during the winter you should use a material that allows the wood to breathe. Optional furniture covers and storage bags are available.

TEAK

What are the properties of teak ?

Teak is a deciduous hardwood tree from managed plantations; it does not come from tropical rainforests. Teak has a naturally high oil content which makes it both stable and resistant to rotting when exposed to climatic extremes. For centuries these special qualities have made teak the preferred choice for marine decking and construction, hence it is considered the premium timber for outdoor furniture.

Teak wood will naturally weather from golden brown to a silver-grey patina colour. We recommend the following range of our Barlow Tyrie products to care for and maintain your Teak furniture. For additional information on this range, please see: <https://www.teak.com/care>

Teak Cleaner (4TC) – will quickly remove accumulated dirt.

If you live in the UK and wish to maintain your furniture using our care products, but do not wish to do the work yourself, then we recommend you contact www.andrewbanks.co.uk who can provide a regular or one-time service according to your needs.

Teak Colour Guard (4TCG) – will maintain the golden brown colour of new teak by using UV inhibitors to prevent the natural greying process and pigment enhancers to help maintain the natural colour of teak.

Teak Stain Guard (4TSG) – forms an invisible layer to protect your teak from everyday stains such as butter, oil, and red wine, making the cleaning of accidental spills an easy task.

Do I need to oil my teak furniture?

Treating with teak oil or other preservatives is not necessary; it will not extend the life of your furniture and is purely cosmetic. We do not recommend oiling your furniture.

Will the metal fittings on my furniture last as long as the teak?

We only use the best marine quality solid brass and stainless steel on our furniture. Neither of these will rust nor deteriorate with age.

Do I need to use a base if I am locating a parasol through a dining table?

Yes, all parasols must be located in the recommended parasol base for safety reasons. We supply our standard parasol base for use of a parasol through a dining table or a free-standing base is available for use without a table. Parasol plates are available for use with the Equinox and Bermuda pedestal tables.

Materials & Accessories

Can we use any of your dining chairs with any of your standard-height tables?

Most of our dining chairs fit comfortably under most of our standard-height dining tables. However, there are exceptions, so if you wish to ‘mix and match’ please check the item specifications on our website or discuss your requirements with your stockist.

RUSTIC TEAK

The Titan range incorporates “Rustic Teak” which is laminated and includes a beautiful wild grain pattern and will also have knots that give it a rugged farmhouse appeal. The wood is a natural product that will start to react with the outdoor elements and look more rustic as the product ages. The laminated wood will start to part and the wood will turn a lovely shade of silver. This is its natural course.

STAINLESS STEEL

What are the properties of stainless steel?

We manufacture our stainless steel furniture using 316 grade stainless steel, commonly known as ‘marine grade’. You will need a regular cleaning regime to keep your stainless steel furniture looking its best with more regular maintenance in harsh environments that include a concentration of salt or chlorine found in coastal areas or around a swimming pool. We have added selected products to our range with an attractive powder coated finish over 316 ‘marine grade’ stainless steel that gives a supreme ability to withstand the harshest marine environment.

If you have any questions or concerns about how 316 grade is affected or

best suited for your area, please contact our customer services or email: info@teak.com.

We recommend that you rinse on a regular basis with clean fresh water to remove the condensed chlorinated moisture droplets and use the following Barlow Tyrie product to care for and maintain your stainless steel furniture. Conventional abrasive cleaners or strong acidic cleaners should never be used on stainless steel as this can cause permanent damage to the finish and the metal itself.

By maintaining a regular rinsing program of all the vulnerable surfaces, the quality of the stainless steel finish can be maintained for many years.

Stainless Steel Clean & Guard (4SSCG) – cleans stainless steel and leaves a fine layer of Teflon® on the surface to help prevent the build-up of contaminants

ALUMINIUM

What are the properties of aluminium?

Aluminium is lightweight, which is why we have chosen to include it in our range. The aluminium we use is ‘virgin aluminium’, meaning it is not reclaimed from scrap and so is stronger and longer lasting. We powder-coat the aluminium to prevent oxidation and ensure it gives long service. We recommend the following Barlow Tyrie product to care for and maintain your aluminium furniture.

Powder Coated Stainless Steel & Aluminium Cleaner (4AC) – easily removes dirt, grease, oil, pollutants, and mould.

WARRANTY

Materials and products have varying periods of warranty and guarantee for residential use that excludes damage due to misuse. For further details please see our website.

DELIVERY

Please note, some large items are very heavy. Our delivery service delivers product to tailgate only; you will be responsible for arranging personnel to carry and position the furniture. If delivery is to a private address, you must assess access width, height, and manoeuvre room for a commercial furniture lorry. Advise the stockist if it is unsuitable prior to delivery. We will, of course, try to accommodate the wishes of our customers. Please make sure when ordering that you add the correct suffix to the product code. The suffix denotes: Frame colour + Sling colour + ceramic tabletop colour, etc. By correctly adding the code suffix we can process your order without delay.

e.g. Product reference code for an Aura Armchair = 1AUA.01.500

Product code [1AUA] + Graphite frame [.01] + Charcoal sling [.500].

Warranty Periods (years)

Product warranties do not apply to the following:

1. Use in a contract or non-residential situation.
2. Damage or chipping to glass, ceramic or HPL due to misuse or impact.
3. Damage due to use of a pressure washer.
4. Deterioration due to the application of teak oil or other wood treatments.
5. Damage that is wear and tear from reasonable private residential use, which includes dents, paint scratches, stains, tears to fabric, etc.
6. Normal deterioration and weathering from exposure to an outdoor environment, which includes small cracks (checking) in wood, colour change, surface blemishes on stainless steel, etc.

All furniture requires some maintenance and we recommend that you clean it regularly using our care products to keep it looking its best.

If you have a problem and the warranty period has expired then you may contact us as we will always do what we can to help you.

A warranty claim must be supported by a photograph.

Open for cushion colours

Cushion colours

Our cushions are manufactured using Sunbrella®, a colour-fast fabric that is made from a durable, all-weather, 100% solution-dyed, Teflon®-coated acrylic fibre. This fabric repels water, but cushions should not be left out in heavy rain for prolonged periods.

Whilst great care has been taken to reproduce fabric and material colours as accurately as possible, it should be noted that due to the limitations of the litho-printing process, we cannot guarantee that the reproduction accurately represents true fabric textures and colours. Please take this into consideration as colours illustrated should only be used as a guide. Some images may contain discontinued fabric colours and furniture ranges.
